	SUNUN
	AXIAL AC FAN MODEL : A2179-HBT
	P/N : TC.GN
[CHARACTERISTICS]	
1. Motor Design	: Reliable Alveolate Motor Construction.
2. Insulation Resistance	: 500 Megohms minimum at 500 VDC.
3. Dielectric Strength	: 1800 VAC for one second.
4. Motor Protection	: Thermal protected.
5. Noise Level	Maggurad in a gami anaghaia shamhar
5. Noise Level	: Measured in a semi-anechoic chamber
	with background noise level below 15
	8
	dB(A). The fan is running in free air with the
	microphone at a distance of one meter
	incropione at a distance of one meter
	from the fan intake.
6. Tolerance	: ±15% on rated power and current.
7. Air Performance	: Measured by a double chamber. The values
	are recorded when the fan speed has stabilized
	are recorded when the ran speed has stabilized
	at rated voltage.

SPECIFICATIONS

MODEL : A2179-HBT P/N : TC.GN

1-1. Rated Voltage	: 220-240 VAC 50/60 Hz
1-2. Operating Voltage Range	: 150-250 VAC
1-3. Starting Voltage	: 150 VAC (25 deg. C POWER ON/OFF)
1-4. Rated Speed	: 2800/3250 RPM ± 10%
1-5. Air Delivery	: 315/335 CFM
1-6. Static Pressure	: 0.65/0.80 Inch-H2O
1-7. Rated Current	: 0.11/0.15 AMP
1-8. Rated Power	: 23/30 WATTS
1-9. Noise Level	: 62/66 dB(A)
1-10. Direction of Rotation	: Clockwise viewed from front of fan blade
1-11. Operating Temperature	: -10 to +70 deg. C
1-12. Storage Temperature	: -40 to +70 deg. C
1-13. Bearing System	: Precision ball bearing system
1-14. Weight	: 1960 g
1-15. Safety	: UL/CUR/TUV/CE Approvals
1-16. Vibration	 Vibration of acceleration 1.5G and frequency 5~50~5Hz is applied in all 3 directions(X,Y,Z), in cycles of 1 minute each, for a total vibration time of 30 minutes.

Alveolate Motor

Thermal Cutout

With Capacitor

Notes

I .SAFETY

- 1. DO NOT use or operate this fan in excess of the limitations set forth in this specification. SUNON is not responsible for the non-performance of this fan and/or any damages resulting from its use, if it is not used or operated in accordance with the specifications.
- 2. SUNON recommends adding a protection circuit to the product or application in which this fan is installed, such as a thermo-fuse, or current-fuse or thermoprotector. The failure to use such a device may result in smoke, fire, electric shock by insulation degradation in cases of motor lock, motor lead short circuit, overload, or over voltage, and/or other failure.
- 3. SUNON recommends installing a protection device to the product or application in which this fan is installed if there is a possibility of reverse-connection between VDC (+) and GND (-). The failure to install such a device may result in smoke, fire, and/or destruction, although these conditions may not manifest immediately.
- 4. This fan must be installed and used in compliance with all applicable safety standards and regulations.
- 5. Use proper care when handling and/or installing this fan. Improper handling or installation of this fan may cause damage that could result in unsafe conditions.
- 6. Use proper care during installation and/or wiring. Failure to use proper care may cause damage to certain components of the fan including, but not limited to, the coil and lead wires, which could result in smoke and/or fire.
- 7. DO NOT use power or ground PWM to control the fan speed. If the fan speed needs to be adjusted, please contact SUNON to customize the product design for your application.
- 8. For critical or extreme environments, including non stop operation, please contact SUNON and we will gladly provide assistance with your product selection to ensure an appropriate cooling product for your application.

Notes

II. SPECIFICATION MODIFICATION

- 1. SUNON offers engineering assistance on fan installation and cooling system design.
- 2. All changes, modifications and/or revisions to the specifications, if any, are incorporated in the attached specifications.
- 3. No changes, modifications and/or revisions to these specifications are effective absent agreement, by both SUNON and the customer, in writing.
- 4. This fan will be shipped in accordance with the attached specification unless SUNON and the customer have agreed otherwise, in writing, as specified in Paragraph 3, above.

III. OTHER

- 1. When building your device, please examine thoroughly any variation of EMC, temperature rise, life data, quality, etc. of this product by shock/drop/vibration testing, etc. If there are any problems or accidents in connection with this product, it should be mutually discussed and examined.
- 2. Use proper care when handling this fan. Components such as fan holders or bearings may be damaged, if touched with fingers or other objects. Additionally, static electricity (ESD) may damage the internal circuits of the fan.
- 3. DO NOT operate this fan in proximity to hazardous materials such as organic silicon, cyanogens, formalin, phenol, or corrosive gas environments including, but not limited to, H₂S, SO₂, NO₂, or Cl₂.
- 4. SUNON recommends that you protect this fan from exposure to outside elements such as dust, condensation, humidity or insects. Exposure of this fan to outside elements such as dust, condensation, humidity or insects may affect its performance and may cause safety hazards. SUNON does not warrant against damage to the product caused by outside elements.

Notes

- 5. This fan must be installed properly and securely. Improper mounting may cause harsh resonance, vibration, and noise.
- 6. Fan guards may prevent injury during handling or installation of the fan and are available for sale with this fan.
- 7. Unless otherwise noted, all testing of this fan is conducted at 25°C ambient temperature and sixty-five percent (65%) relative humidity.
- 8. DO NOT store this fan in an environment with high humidity. This fan must be stored in accordance with the attached specifications regarding storage temperature. If this fan is stored for more than 6 months, SUNON recommends functional testing before using.
- 9. SUNON reserves the right to use components from multiple sources at its discretion. The use of components from other sources will not affect the specfications as described herein.
- 10. The "Life Expectancy" of this fan has not been evaluated for use in combination with any end application. Therefore, the Life Expectancy Test Reports (L10 and MTTF Report) that relate to this fan are only for reference.

VI. WARRANTY

This fan is warranted against all defects which are proved to be fault in our workmanship and material for one year from the date of our delivery. The sole responsibility under the warranty shall be limited to the repair of the fan or the replacement thereof, at SUNON's sole discretion. SUNON will not be responsible for the failures of its fans due to improper handing, misuse or the failure to follow specifications or instructions for use. In the event of warranty claim, the customer shall immediately notify SUNON for verification. SUNON will not be responsible for any consequential damage to the customer's equipment as a result of any fans proven to be defective.
